### **DETAILED ACTION**

Page 2

### Divisional Reissue Applications

1. There is no requirement that a family of divisional reissue applications issue at the same time; however, it is required that they contain a cross reference to each other in the specification. 37 CFR 1.177(a) requires that all multiple reissue applications resulting from a single patent must include as the first sentence of their respective specifications a cross reference to the other reissue application(s). Therefore, an amendment making this cross-reference is required.

### Certification of Correction

The first page of issued patent, 5,825,421, has been amended to incorporate the change in 2. the assignee name as presented in the certificate of correction to the issued patent. A copy of said change is attached.

#### Drawings

3. Regarding applicant's request to transfer drawings from the Patent application (filed 10/18/2000). The Office no longer transfers drawings in accordance with 37 CFR 1.173 (a)(2). The photocopy of formal drawings of the patent is acceptable in this application. Therefore, the notation in the Office Action of June 19, 2001 that the drawings filed, were informal, is withdrawn.

### Certificate of Correction in Patent

4. The Certificate of Correction in the Patent filed on 12/17/1998 to correct name of assignee was granted on 06/04/1999. The correct name of assignee of the patent, US 5,825,421, as indicated in the PALM system has been incorporated in the present application.

Art Unit: 2621

### Information Disclosure Statement

5. The information disclosure statement (IDS) submitted 01/18/2001 has been considered.

### Priority

6. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 08/773,574, now Patent No. 5,825,421, filed on December 27, 1996.

## Surrender Of The Original Patent

7. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

The applicants have submitted an offer to surrender original Patent filed 09/03/2002 but the original Patent has not been submitted. Appropriate correction is required.

### The Reissue Oath/Declaration

8. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

### Claim Rejection

9. Claims 1-16 are rejected as being based upon a defective reissue Oath/Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Oath/Declaration is set forth in the discussion above in this Office action.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Tung Vo whose telephone number is 571-272-7340. The

examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Mehrdad Dastouri can be reached on 571-272-7418. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
